Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Developing the North Coast: An Action Program; Progress Report This report outlines current knowledge of local water problems and suggests possible solutions in portions of California s North Coastal area. The studies were begun in response to Assembly Concurrent Resolution No, 27, adopted by the Senate and the Assembly in the I 966 First Extra Session. The resolution requests that the Department of Water Resources expend \$20,000 . . for an action program of investigation to enable the Department to present to the Legislature for review specific recommendations as to all necessary local, as well as other, flood control and water conservation and development facilities, primarily on the Smith, Mad, and Van Duzen Rivers and the South Fork of the Eel River, which the Department determines must be constructed to accomplish overall basin development of such rivers. This report includes a preliminary evaluation of local problems and specific plans for the solution of these problems. It also describes a proposed future program to evaluate in detail these plans and similar plans in other basins in the North Coastal area. This report shows the need for future studies of local projects and estimates the funding required to meet this need. The last chapter summarizes the funding schedule required and recommends that the Legislature approve this schedule.
