In the first part of July last, her right ear began to swell, was very red, and soon became very painful, and the pain extended through the cavity of the ear into the right and middle portion of the head, and in three days the swelling of the ear subsided and left a tubercle of the size of a pea on the upper side of the jaw, near the ear; but the pain in the internal ear and head has continued with intervals of ease. On the 10th of November last, this tubercle began to enlarge, and to be irritated; and the external cervical and submaxillary tubercles of the same side began to increase in size, and to be painful, and soon after the throat, with the gum of the upper jaw of the right side became sore and painful, and in a few days after, the right side of the neck, with the lower and upper jaw, began to swell, and with the ear and right side of the head became very painful. Her heart began to beat very hard about the last of November, and this strong or hard beating continues. On the 26th of December she began to cough and expectorate, and this cough and expectoration continues. Her stomach, from the commencement of the disease in the uterus, has been more or less disordered with the first mild and then acute symptoms of dyspepsia--bowels confined. The marasmus has been slow...
