

## Dermatology for Skin of Color

By A. Paul Kelly, Susan C. Taylor

McGraw-Hill Professional/ Jaypee Brothers Medical Publishers, 2009. Hardcover. Book Condition: New. First edition.

Dermatology for Skin of Color is a comprehensive reference thoroughly detailing every aspect of dermatologic science as it applies to skin of color - from the development of the skin to the biology of hair and nails. All commonly encountered dermatologic problems of Africans, Asians, Native American, and other peoples are covered as are other diseases with significant skin manifestations. For each problem/disorder discussed, the authors offer detailed, specialized advice on diagnosis and treatment methods. Both medical and surgical treatment options are discussed as is cosmetic dermatology. In addition, folk remedies and over-the-counter treatments specifically targeting this population are also covered. Features 600 superb full-color pre and post operative photographs that can also be used for patient education Clinical pearls impart the wisdom of experience of international experts Easy-to-use, standardized presentation describes each condition and procedure Comprehensive coverage that includes: Pediatric dermatology; Medical, surgical, and cosmetic treatment options; The differences between skin of color and Caucasian skin as well as the differences between ethnic groups with skin of color; Important basic science information on the structure and function of skin of color Table of contents Contributors Foreword Introduction...
